## **CCTV POLICY**

### **INTRODUCTION**

Closed Circuit Television System (CCTVS) is installed in St Paul's N.S.

### **PURPOSE OF POLICY**

The purpose of this policy is to regulate the use of Closed Circuit Television and its associated technology in the monitoring of both the internal and external environs of the premises under the remit of the BOM of St Paul's N.S.

CCTV systems are installed (both internally and externally) in the premises for the purpose of enhancing security of the building and its associated equipment as well as creating a mindfulness among the occupants, at any one time, that a surveillance security system is in operation within and/or in the external environs of the premises during both the daylight and night hours each day. CCTV surveillance at the School is intended for the purposes of:

1. protecting the school buildings and school assets, both during and after school hours;
2. promoting the health and safety of staff, pupils and visitors;
3. preventing bullying;
4. reducing the incidence of crime and anti-social behaviour (including theft and vandalism);
5. supporting the Gardaí in a bid to deter and detect crime;
6. assisting in identifying, apprehending and prosecuting offenders; and
7. ensuring that the school rules are respected so that the school can be properly managed

### **SCOPE**

This policy relates directly to the location and use of CCTV and the monitoring, recording and subsequent use of such recorded material. Where classes and activities are carried out in rented premises, St Paul's N.S. will ensure that CCTV systems, where installed, are operated only in a way that is compatible with the provisions of this policy.

### **GENERAL PRINCIPLES**

The BOM of St Paul's N.S. has a statutory responsibility for the protection of its property and equipment as well as providing a sense of security to its employees, students and invitees to its premises. The BOM of St Paul's N.S. owes a duty of care under the provisions of Safety, Health and Welfare at Work Act 2005 and associated legislation and utilises the CCTV systems and their associated monitoring and recording equipment as an added mode of security and surveillance for the purpose of enhancing the quality of life of the school community.

The use of the CCTV system will be conducted in a professional, ethical and legal manner and any diversion of the use of CCTV security technologies for other purposes is prohibited by this policy e.g. CCTV will not be used for monitoring employee performance.

Information obtained through the CCTV system may only be released when authorised by the Principal, following consultation with the Chairperson of the BOM and in line with the school's Data Access Procedures Policy. Any requests for CCTV recordings/images from An Garda Síochána to investigate crime is exempt

from the requirements of a Data Access Request and will be duly granted. This action will be recorded in the Board of Management minutes.

CCTV monitoring of public areas for security purposes will be conducted in a manner consistent with all existing policies adopted by the school, including the provisions set down in equality and other educational and related legislation.

This policy prohibits monitoring based on the characteristics and classifications contained in equality and other related legislation e.g. race, gender, sexual orientation, national origin, disability, etc.

Video monitoring of public areas for security purposes within school premises is limited to uses that do not violate the individual's reasonable expectation to privacy.

Information obtained in violation of this policy may not be used in a disciplinary proceeding against an employee of the school or a student attending one of its schools/centres.

All CCTV systems and associated equipment will be required to be compliant with this policy following its adoption by the BOM of St Paul's N.S. Recognisable images captured by CCTV systems are personal data. They are therefore subject to the provisions of the Data Protection Acts 1988 to 2018.

### **JUSTIFICATION FOR USE OF CCTV**

Data Protection legislation requires that data is "adequate, relevant and not excessive" for the purpose for which it is collected. This means that the BOM of St Paul's N.S. needs to be able to justify the obtaining and use of personal data by means of a CCTV system. The use of CCTV to control the perimeter of the school buildings for security purposes has been deemed to be justified by the BOM. The system is intended to capture images of intruders or of individuals damaging property or removing goods without authorisation.

CCTV systems will not be used to monitor normal teacher/student classroom activity in school.

In other areas of the school where CCTV has been installed, e.g. hallways, stairwells, locker areas, the Principal has demonstrated that there is a proven risk to security and/or health & safety and that the installation of CCTV is proportionate in addressing such issues that have arisen prior to the installation of the system.

### **LOCATION OF CAMERAS**

The location of cameras is a key consideration. Use of CCTV to monitor areas where individuals would have a reasonable expectation of privacy would be difficult to justify. The BOM of St Paul's N.S. has endeavoured to select locations for the installation of CCTV cameras which are least intrusive to protect the privacy of individuals. Cameras placed so as to record external areas are positioned in such a way as to prevent or minimise recording of passers-by or of another person's private property.

CCTV Video Monitoring and Recording of Public Areas in (school name) may include the following:

Protection of school buildings and property: The building's perimeter, entrances and exits, lobbies and corridors, special storage areas, cashier locations, receiving areas for goods/services.

Monitoring of Access Control Systems: Monitor and record restricted access areas at entrances to buildings and other areas.

Verification of Security Alarms: Intrusion alarms, exit door controls, external alarms.

Video Patrol of Public Areas: Parking areas, Main entrance/exit gates, Traffic Control.

Criminal Investigations (carried out by An Garda Síochána): Robbery, burglary and theft surveillance.

### **COVERT SURVEILLANCE**

St Paul's N.S. BOM will not engage in covert surveillance.

Where An Garda Síochána requests to carry out covert surveillance on school premises, such covert surveillance may require the consent of a judge. Accordingly, any such request made by An Garda Síochána will be requested in writing and the BOM will seek Data Protection Commissioner/legal advice.

## **NOTIFICATION – SIGNAGE**

The Principal will provide a copy of this CCTV Policy on request to staff, students, parents and visitors to the school. This policy describes the purpose and location of CCTV monitoring, a contact number for those wishing to discuss CCTV monitoring and guidelines for its use. The location of CCTV cameras will also be indicated to the BOM and, in the case of ETB schools, also to the CEO.

Adequate signage will be placed at each location in which a CCTV camera(s) is sited to indicate that CCTV is in operation. Adequate signage will also be prominently displayed at the entrance to St Paul's N.S. property. Signage shall include the name and contact details of the data controller as well as the specific purpose(s) for which the CCTV camera is in place in each location.

**WARNING**

**CCTV cameras in operation**

**Images are being monitored and recorded for the purpose of crime-prevention, the prevention of anti-social behaviour, the prevention of bullying, for the safety of our staff and students and for the protection of St Paul's N.S. and its property. This system will be in operation 24 hours a day, every day. These images may be passed to An Garda Síochána.**

**This system is controlled by the BOM of St Paul's N.S**

## **STORAGE & RETENTION**

Data Protection legislation states that data “shall not be kept for longer than is necessary for “the purposes for which it was obtained. A data controller needs to be able to justify this retention period. For a normal CCTV security system, it would be difficult to justify retention beyond a month (28 days), except where the images identify an issue – such as a break-in or theft and those particular images/recordings are retained specifically in the context of an investigation/prosecution of that issue.

**Accordingly, the images captured by the CCTV system will be retained for a maximum of 28 days, except where the image identifies an issue and is retained specifically in the context of an investigation/prosecution of that issue.**

The images/recordings will be stored in a secure environment and access will be restricted to authorised personnel. Supervising the access and maintenance of the CCTV System is the responsibility of the BOM. The Principal may delegate the administration of the CCTV System to another staff member. In certain circumstances, the recordings may also be viewed by other individuals in order to achieve the objectives set out above (such individuals may include the Gardaí, the Deputy Principal, other members of the teaching staff, representatives of the Department of Education and Skills, representatives of the HSE and/or the parent of a recorded student). When CCTV recordings are being viewed, access will be limited to authorised individuals on a need-to-know basis. Where a request is made by a child over 12 or their parent for CCTV footage, a data request form must be submitted to the Chairperson of the Board of Management in line with St Paul's ‘Data Access Procedures Policy’.

## **ACCESS**

Access to the CCTV system and stored images will be restricted to authorised personnel. i.e. the Chairperson, Principal and Deputy Principal.

In relevant circumstances, CCTV footage may be accessed:

1. By An Garda Síochána where St Paul's N.S. BOM are required by law to make a report regarding the commission of a suspected crime; or
2. Following a request by An Garda Síochána when a crime or suspected crime has taken place and/or when it is suspected that illegal/anti-social behaviour is taking place on St Paul's N.S. property, or
3. By the HSE and/or by any other statutory body charged with child safeguarding; or
4. To assist the Principal in establishing facts in cases of unacceptable student behaviour, in which case the parents/guardians will be informed; or
5. To assist the Principal in establishing facts in cases of a safety incident relating to pupils.
6. To data subjects (or their legal representatives), pursuant to an access request where the time, date and location of the recordings is furnished to St Paul's N.S. BOM, or
7. To individuals (or their legal representatives) subject to a court order
8. To the school insurance company where the insurance company requires same in order to pursue a claim for damage done to the insured property

Requests by An Garda Síochána: Information obtained through video monitoring will only be released when authorised by the Principal following consultation with the Chairperson of the BOM. If An Garda Síochána request CCTV images for a specific investigation, An Garda Síochána may require a warrant and accordingly any such request made by An Garda Síochána should be made in writing and the school should immediately seek legal advice.

Access requests: On written request, any person whose image has been recorded has a right to be given a copy of the information recorded which relates to them, provided always that such an image/recording exists i.e. has not been deleted and provided also that an exemption/prohibition does not apply to the release. Where the image/recording identifies another individual, those images may only be released where they can be redacted/obscured so that the other person is not identified or identifiable. To exercise their right of access, a data subject must make an application in writing to the Chairperson of the Board of Management. The school must respond within 1 month.

A person should provide all the necessary information to assist St Paul's N.S. BOM in locating the CCTV recorded data, such as the date, time and location of the recording. If the image is of such poor quality as not to clearly identify an individual, that image may not be considered to be personal data and may not be handed over by the school.

In giving a person a copy of their data, the school may provide a still/series of still pictures, a tape or a disk with relevant images. However, other images of other individuals will be obscured before the data is released.

## **RESPONSIBILITIES**

The Principal will:

1. Ensure that the use of CCTV systems is implemented in accordance with the policy set down by the BOM of St Paul's N.S.
2. Oversee and co-ordinate the use of CCTV monitoring for safety and security purposes within St Paul's N.S.
3. Ensure that all existing CCTV monitoring systems will be evaluated for compliance with this policy
4. Ensure that the CCTV monitoring at St Paul's is consistent with the highest standards and protections
5. Be responsible for the release of any information or recorded CCTV materials stored in compliance with this policy
6. Maintain a record of access (recorded in the Principals report) to or the release of tapes or any material recorded or stored in the system
7. Ensure that the data on the monitoring system is not duplicated for release
8. Give consideration to both students' and staff feedback and/or complaints regarding possible invasion of privacy or confidentiality due to the location of a particular CCTV camera or associated equipment
9. Ensure that all areas being monitored are not in breach of an enhanced expectation of the privacy of individuals within the school and be mindful that no such infringement is likely to take place
10. Ensure that external cameras are non-intrusive in terms of their positions and views of neighbouring residential housing and comply with the principle of "Reasonable Expectation of Privacy"
11. Ensure that the storage device on the monitoring system is secure with access by authorised personnel only
12. Ensure that images recorded on tapes/DVDs/digital recordings are stored for a period not longer than 28 days and are then erased unless required as part of a criminal investigation or court proceedings (criminal or civil) or other bona fide use as approved by the BOM
13. Ensure that when a zoom facility on a camera is being used, there is a second person present with the operator of the camera to guarantee that there is no unwarranted invasion of privacy
14. Ensure that camera control is solely to monitor suspicious behavior, criminal damage etc. and not to monitor individual characteristics
15. Ensure that camera control is not infringing an individual's reasonable expectation of privacy in public areas
16. Ensure that where An Garda Síochána request to set up mobile video equipment for criminal investigations, Data Protection Commissioner/legal advice has been obtained and such activities have the approval of the Chairperson of the Board

## **SECURITY COMPANIES**

The school CCTV system is controlled by a security company contracted by the school BOM. The following applies:

Boxer Security Systems hold a record of cameras and recordings including location. No off-sight monitoring takes place. All recorded data is stored on the school premises which has an intruder alarm.

Security companies that place and operate cameras on behalf of clients are considered to be 'Data Processors'. As data processors, they operate under the instruction of data controllers (their clients i.e. School BOM). Data Protection legislation places a number of obligations on data processors. These include having appropriate security measures in place to prevent unauthorised access to, or unauthorised alteration, disclosure or destruction of, the data, in particular where the processing involves the transmission of data over a network and against all unlawful forms of processing. This obligation can be met by having appropriate access controls to image storage or having robust encryption where remote access to live recording is permitted. Staff of the security company have been made aware of their obligations relating to the security of data.

### **Monitoring and Review:**

It will be necessary to review this plan on a regular basis to ensure optimum implementation of the CCTV Policy in the school.

### **Modification Clause**

The Board of Management reserves the right to modify details of this policy at short notice. Such modification may be needed in an ever-changing environment and social context.
